

ODYSSEY
MANUFACTURING CO.

Odyssey Manufacturing Company is one of the leading chemical manufacturers and distributors to the Florida's water and wastewater industry. Odyssey provides sodium hypochlorite to most of plants in Florida in addition to providing sodium bisulfite and sodium hydroxide. In addition, Odyssey is a licensed general and plumbing contractor who specializes in chemical system design, permitting, equipment supply and installation and repair services. We are also the Florida distributor for the Process Solutions MicrClor On-Site Sodium Hypochlorite Generator (OSHG), Residual Control System (RCS) and TTHM Removal Systems (TRS) along with the Pax and Tank Shark Ground Storage Tank mixers.
